AN EPIC ADVENTURE

1500 YEARS IN THE MAKING

"The Saga of Beowulf" is the first complete novelization of the epic 10th century Old English poem *Beowulf*. Drawing on ten years of research, *"The Saga of Beowulf"* chronicles the tragic wars of the rising Nordic nations, the endless blood-feuds of their clans, battles with mythic creatures in an ancient heroic age, and the final, futile struggle of one man against the will of Fate that made of him a Legend.

"Breathtaking in scope and relentless in pace," the story follows Beowulf as he embarks upon a fateful quest for vengeance against the creature that slew his father, setting in motion a sequence of events that will take him from the fetid fens of Denmark to the frozen fields of Sweden as he battles men and demons in a quest to conquer his own fears, all the while fleeing from the woman he has sworn to love. Steeped in Nordic myth and lore, this epic tale now comes to life once more in a *"riveting"* new retelling for a modern audience.
